

BL/LIB® -VIRTUAL TAPESERVER

Ease of management and monitoring

BL/LIB:

- ① Manages tape movement
- ① Manages retention timeframes
- ① Cross-references all the copies of your data
- ① Automates all the movement and retention based upon customer's defined rules and requirements

BL/LIB-VTS:

- ① Moves data to virtual cartridge first
- ① No operational changes
- ① Facilitates the migration to new tape technology
- ① Allows ClearPath data to participate in an enterprise-wide backup infrastructure
