

# VaultLedger™

Unprecedented Control. Unheard-of Simplicity.

## Control Your Data.

VaultLedger is the easy-to-use tape management, software solution for all your removable media including tape storage cases and containers. An intuitive Web-based interface gives you complete control over your backup tapes—regardless of your location or time of day. Offsite vault inventory reconciliation, tape audits, and tape tracking take minutes not hours or days. This is not just a "peak" into your vault. It's your database that you control.

And since VaultLedger automatically records all your tape information, you'll always have fast, complete answers to your tape management questions.

## HIPAA and Sarbanes-Oxley Compliance.

If you are concerned about complying with government regulations, VaultLedger has you covered. VaultLedger creates a complete audit trail, allowing you to print comprehensive audit reports to help satisfy compliancy issues.

## It's Never Been Easier.

- ▶ Access VaultLedger's Web-based interface from virtually any computer—at any time
- ▶ Eliminate installation headaches with our remote hosting option
- ▶ Quickly enter and reconcile action lists with bar code scanning technology
- ▶ Ensure **absolute accuracy** by automatically recording all tape information from your backup application
- ▶ Easily **reconcile** on- and off-site inventories with Quicken®-like functionality

## It's as Easy as 1-2-3

### Step 1

#### Quick and Easy List Generation

Create shipping, receiving or disaster recovery lists by manually entering media numbers, using an online or remote bar code scanner, importing TMS lists, or importing a batch file.

### Step 2

#### Fast and Accurate Reconciliation

Quickly reconcile tape shipping or receiving lists between VaultLedger and your offsite vault using either online or remote bar code scanning. A Quicken®-like functionality clearly identifies discrepancies, allowing you to fix them with ease and record the changes for your auditor.

### Step 3

#### Secure List Transmission

Once your lists are generated and reconciled, a single click of your mouse sends the lists to your offsite vault using secure FTP.

## Try VaultLeger for FREE!

Download the FREE trial version of VaultLedger at [www.vaultledger.com](http://www.vaultledger.com).

There's no risk and no obligation. You'll see for yourself how easy tape management can be.
